STOP DROWNING IN MANUAL BUSYWORK. INSTALL YOUR BUSINESS OPERATING SYSTEM.

Recover 15+ Hours Every Week Without Hiring Extra Admin Staff

Most 1-to-25 person businesses lose 20% to 35% of their potential net profit to the three silent killers of small business growth: missed after-hours leads, manual copy-pasting between disconnected software apps, and overdue invoices sitting uncollected for 40+ days.

The Small Business AI Automation Operating System gives founders, clinic directors, trade contractors, and B2B agency leaders a deterministic, zero-hallucination blueprint to automate all 5 core departments:

1. THE T.R.A.V. HUMAN-IN-THE-LOOP SAFETY ARCHITECTURE (CHAPTERS 1–2)
Eliminate AI pricing errors with closed-world truth tables, deterministic pre-AI regex guardrails, and 15-second Slack/Teams Amber Approval Cards for custom quotes and sensitive client replies.

2. 60-SECOND SPEED-TO-LEAD & 3-TIER QUOTE ENGINE (CHAPTERS 3–4)
Capture web forms, missed calls, and DMs in under 60 seconds, convert field voice memos into Good-Better-Best proposals, and run the 14-day polite-persistence follow-up loop automatically.

3. ZERO-DROP ONBOARDING, RAG SUPPORT & 5-STAR REVIEWS (CHAPTERS 5–7)
Provision client portals the second a deposit clears, resolve 60%+ of routine Tier-1 tickets from your verified knowledge base, and route happy customers to Google reviews while intercepting detractors.

4. AUTOMATED INVOICING, 5-STAGE A/R CHASER & RECEIPT OCR (CHAPTER 8)
Compress Days Sales Outstanding (DSO) from 42 days to 12 days with instant milestone billing, relationship-safe overdue payment reminders, and automated 5% supplier price-creep detection.

5. LIVING TEAM SOPs & THE 15-MINUTE FRIDAY SCORECARD (CHAPTERS 9–10)
Turn 3-minute screen recordings into 7-block SOPs, delegate tasks by voice memo, and review your entire company every Friday at 3:00 PM across 12 Core Owner KPIs in 15 minutes flat.

INSIDE THIS COMPLETE ENTERPRISE OPERATING MANUAL:

- ✓ 50 Copy-Ready JSON & Markdown AI Workflow Prompts (Prompts 1.1 – 10.5)
- ✓ 12 Red-Gate Emergency Business Operations Scripts (Customer, AR & Outage)
- ✓ 20 High-Resolution System Architecture & Decision-Tree Vector Diagrams
- ✓ 10 Department Implementation Workbooks & Phased 90-Day Rollout Schedule
- ✓ Companion Offline Web Calculator Suite, Notion OS & Make/n8n Blueprints
